## iBMIAir360 Function v1.0.0.8

---

The online BMI app gathers measurement data from residents in different cities and calculates their respective BMI risk levels, so that you can browse the statistics of the city where you live. You can publish your thoughts on the online interactive service to encourage the local community to lose weight together for the sake of their health.

KUO YUE always persists in giving consideration to both technology innovation and quality. The software can have inexhaustible innovation and creation; therefore, it's enchanting. The recent technology develops in order to meet the user's needs. The renovation of the consumer software is one good example.
