iKeyPass360 Function v1.0.0.8

iKeyPass360 is a set of password management app. Creating passwords is a difficult task, so is remembering them. Computers, banks, emails and websites require the user to set up a large number of passwords, and they can now be preserved safely and indefinitely. The sliding unlocking and locking password protection mechanism is easy to remember and use. All you need to remember is a strong central password to access your information.

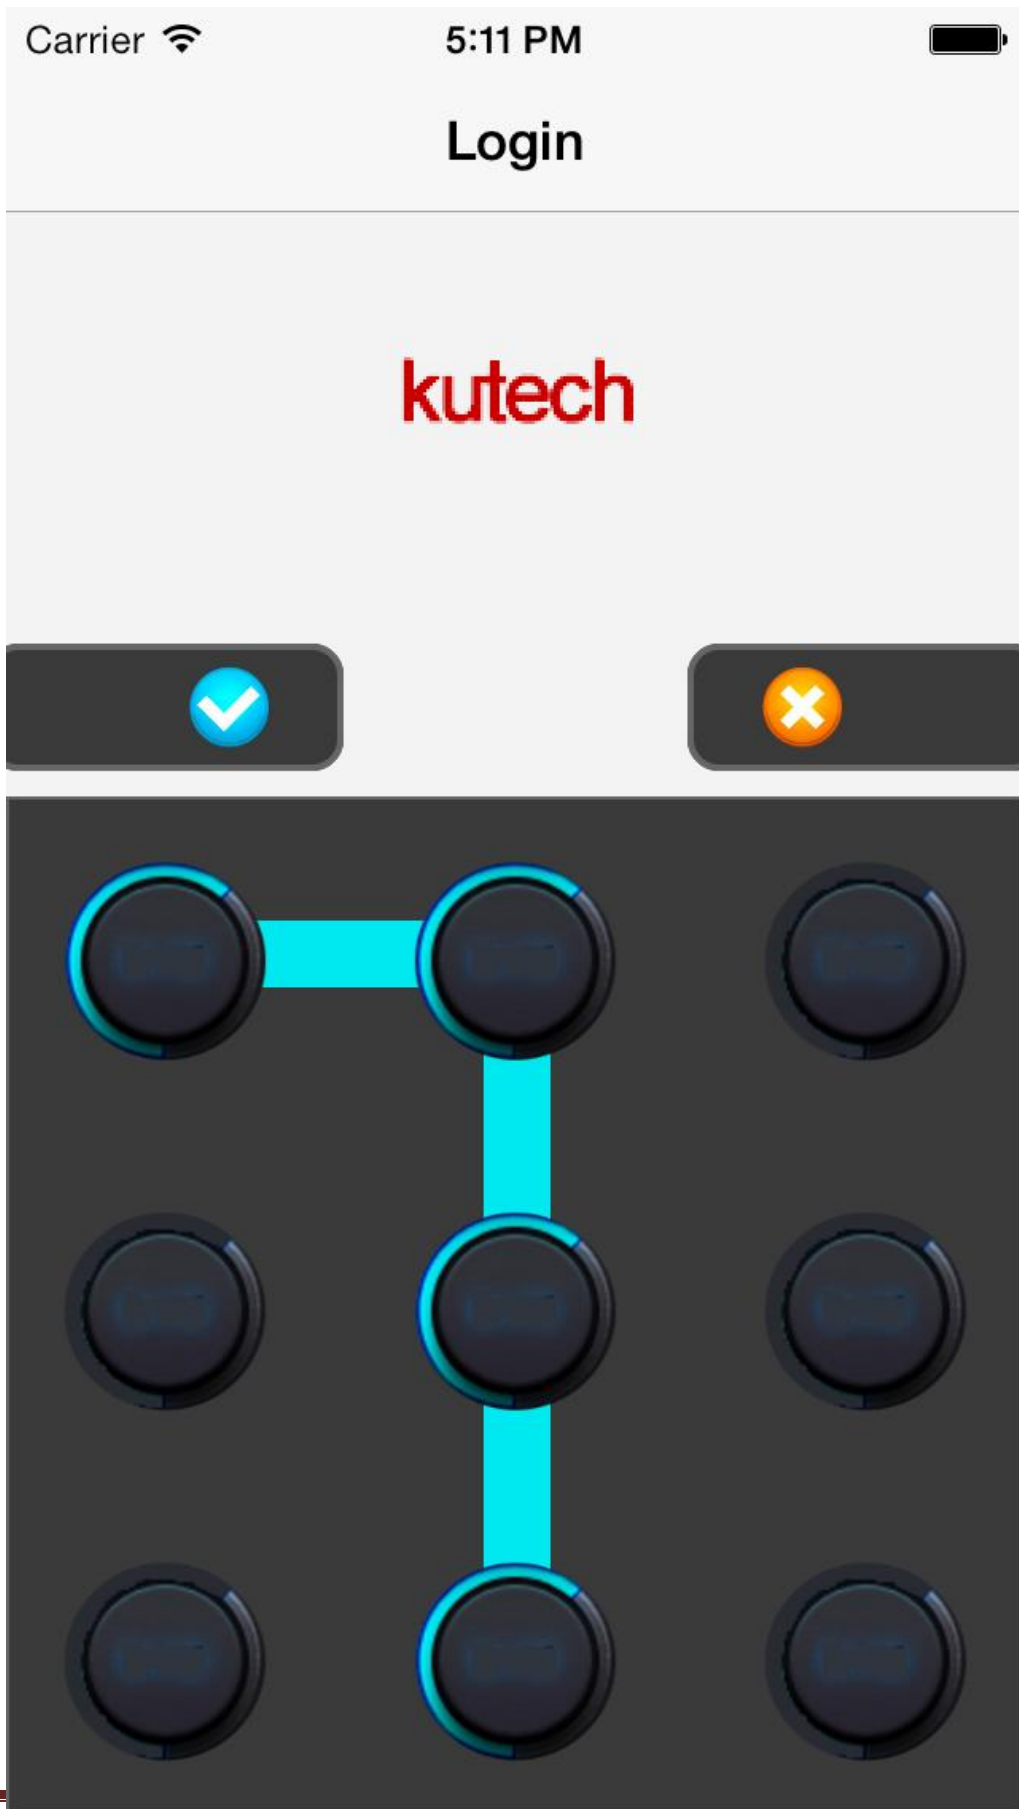

KUO YUE always persists in giving consideration to both technology innovation and quality. The software can have inexhaustible innovation and creation; therefore, it's enchanting. The recent technology develops in order to meet the user's needs. The renovation of the consumer software is one good example.
