iSBIC361 Function v1.0.0.8

The software can have inexhaustible innovation and creation; therefore, it's enchanting. The recent technology develops in order to meet the user's needs. The renovation of the consumer software is one good example.

iSBIC is a small business information collection app. It allows you to create a data entry application from specifying field caption, type, length, default value and delimiter, etc. Designed for the demanding needs of information collection. All data collect will be sent back by email as an attachment with just a click. KUO YUE always persists in giving consideration to both technology innovation and quality.
