iWSC361 Function v3.6.0.8

The software can have inexhaustible innovation and creation; therefore, it's enchanting. The recent technology develops in order to meet the user's needs. The renovation of the consumer software is one good example.

The software iWSC361 broke new ground in the realm of inventory control system. The kutech would like to introduce the stock count solutions in iPad. The solution integrates iPhone and Bluetooth barcode scanner. To record an inventory transaction, the system uses a bluetooth barcode scanner to collect stock items from the operators via iPad. The kutech always persists in giving consideration to both technology innovation and quality.

iTunes Link :

- IWSC361 v3.6.0.8

Lite Features :

- System develop based on iOS7.0 or later.
- Scan directly to barcode for stock item
- Shorten stock taking process
