iSC360 Function v3.1.0.8

The software can have inexhaustible innovation and creation; therefore, it's enchanting. The recent technology develops in order to meet the user's needs. The renovation of the consumer software is one good example.

The software iSC360 broke new ground in the realm of inventory control system. KUO YUE would like to introduce the stock count solutions in iPhone. The solution integrates iPhone and Bluetooth barcode scanner. To record an inventory transaction, the system uses a bluetooth barcode scanner to collect stock items from the operators via iPhone. KUO YUE always persists in giving consideration to both technology innovation and quality.

iTunes Link :

- v3.1.0.8
